

AS9100 Rev. D Internal Auditor

Course Description

Building on knowledge acquired through previous training in the requirements of AS9100 Rev. D, this course delivers the practical knowledge required to conduct internal audits of an AS9100 Rev. D Quality Management System.

A review of AS9100 Rev. D to ensure thorough and common understanding of the new requirements is followed by information on how to conduct audits in accordance with the ISO 9000 series of standards:

- ISO 19011:2018 - "Guidelines for Auditing Management Systems", and
- "Guidance on the Concept and Use of the Process Approach for Management Systems".

Through a balance of formal presentations, case studies, simulation of audit activities and group activities, participants will learn the necessary elements to perform a quality audit.

Who Should Take It

Individuals with responsibility for management, operation, implementation or maintenance of an AS9100 Rev. D QMS. This includes, but is not limited to:

- Those responsible for transitioning their organization's QMS to meet the new requirements.
- Senior Management
- Quality Coordinators, Quality Managers & Management Representatives
- Members of the Quality Team and/or Internal Audit Team
- AS9100 Auditors, Quality Professionals and Consultants

Learning Objectives

- Review the new standard's requirements (each section and its requirements).
- Understand effective internal auditing to the AS9100 family of standards.
- Appreciate the roles and responsibilities of the Auditor.
- Apply the concepts and guidelines detailed in ISO 19011:2018 when performing an audit.
- Practice all phases of an internal audit (using checklists, interviewing, recording evidence, etc.).
- Develop the communication skills, leadership skills and attitudes required to perform internal audits.

Prerequisites

For maximum benefit, attendees should already be familiar with the AS9100 Rev. D standard and its requirements for quality management systems.

Location

Public Venue or On-Site

Duration

2 Days
